Profil

 Dynamic and motivated web and mobile developer with over one year of professional experience in both web and mobile development. Proficient in building robust and scalable applications using modern technologies like React, React Native, and Spring Boot. Skilled in deploying and optimizing applications with Nginx, setting up reverse proxies, and securing web services. Passionate about problem-solving, continuous learning, and collaborating with teams to create innovative web and mobile solutions.

Key Skills

- Frontend: Figma, Bootstrap, Tailwind CSS, React JS, Material UI, React Native, Expo, NativeWind
- Backend: Node JS, Express JS, Mongoose, Java, Java EE, Spring, Spring Boot
- Database: SQL (PostgreSQL, MySQL, Oracle), NoSQL (MongoDB, Atlas Cloud)
- Messaging & Microservices: REST API, RabbitMQ, Microservices architecture
- DevOps & Tools: Docker, Docker Compose, Nginx, Git, GitHub, Version Control
- Testing: TDD, Junit, Mockito, SonarQube
- Performance: Web Performance Optimization, Responsive Design
- Other: API Integration, Problem-Solving, Team Collaboration

Experience

TechI'nstinct, Backend Developer, from september 2023
- Developed microservices using Spring Framework (Spring Boot, Spring MVC) and Hibernate for PostgreSQL databases.
- Implemented RabbitMQ for message queuing and asynchronous communication.
- Collaborated with front-end developers to integrate backend functionality for seamless user experience.
- Conducted code reviews and troubleshooting to maintain code quality.
- Configured and optimized Nginx as a reverse proxy, ensuring performance and security with SSL certificates.

Education

- Bachelor in Software Engineering, June 2021
- Master 2 in Software Engineering, September 2023
